I now realize the vital importance of the exploration of emotion and trauma in the healing process. I feel released, validated, and empowered. I know that I am leaving this training a different person. I know that it will take me some time to process all that I've heard and experienced. But for once, I feel like I have stepped into a new way to live and to love. I started this morning with breathing and meditation before I left the hotel. I want to put this into practice now and work toward being regulated everyday! Thank you for this great opportunity, it was sooo worth it!
